

# **D&B** AUTO BODY, INC.

To Whom it May Concern:

This letter is written in recommendation for Managed Air Systems. I am happy write this letter to inform you of how pleased I am with this company.

D&B Auto Body had purchased a high-end downdraft booth and mixing room through Managed Air Systems. Before we made the decision to make this purchase, we researched all makes and models. We were looking for the highest quality and latest technology in equipment. We found that Managed Air Systems represented exactly what we were looking for and more.

They stood behind our purchase and were available to us anytime thereafter. Their service follow through is exceptional. The depth of their company and extensive product line has allowed us to use them exclusively for all of our equipment needs.

Managed Air Systems has exceeded our expectations by providing the right recommendations and a system we are extremely pleased with. Excellent booth lighting and clean paint jobs make all the difference in our production. D&B Auto Body feels we made an excellent decision in choosing Managed Air Systems and Global Finishing Systems for our shops needs.

Sincerely,

Richard A Mazzola Jr  
Vice President
